

I'd like to thank everyone who volunteered, donated time, supplies, or support to the Santa's Workshop for 2022! We could not have had such a great event without everyone working so hard together! So THANK YOU!!!

Preparations for the 2023 Santa's Workshop are already underway! This year we are starting a Santa's Workshop Team open to those in the Pilgrim Community because even Santa needs his Elves! There is a lot of behind the scenes activity for Santa's Workshop! With so much to do all year long there's something for anyone interested in helping!

For those savvy shoppers, there's gifts to be bought, do you have a good head for business because there is pricing to be done, are you a creative decorator, or are you skilled at technology and communication details, or are you willing to share your experience with display design, or even do some heavy lifting! Any and all talents are welcome!

If you think you might be interested in joining the Santa's Workshop Team please contact Andrea Short at andreashort23@yahoo.com.

- Eve Haycock, PTL President
